More

In the field of investment and innovation, including low-carbon, including carbon trading, low-carbon solutions, low-carbon product platforms, etc

Artificial intelligence, including algorithm technology/software, biomimetic technology, artificial intelligence products, etc

Greater health and biopharmaceuticals, including cell technology, rehabilitation technology, life technology, innovative therapies, and innovative drugs, as well as

Technology and technology transfer, cutting-edge technology incubators, international student incubators, international technology cooperation, targeted technology introduction, low-carbon product platforms, etc

International latest/super industrial parks, international industrial research parks, agriculture/sightseeing agriculture, food safety, Sino foreign cooperative education, etc

Investment Area

Industry 4.0/Intelligent manufacturing,
information electronics industry,
biopharmaceutical industry,
cell technology
and life technology industry,
large-scale industrial software
and algorithm industry,
agricultural technology
and food safety industry,
robot/intelligent wearable industry,
artificial intelligence
and biomimetic industry,
smart grid and ultra-high voltage electrical industry,
carbon platform carbon network carbon trading industry, etc
